

# Eve Mini™

## Smart and fast charging with a solid and compact charge point

The Eve Mini is the most compact charge point in the Alfen product range. It offers charging speeds of 3.7kW up to 22kW, as well as all smart features that are also integrated in our other charge points. The Eve Mini features all elements needed for automated clearing of electricity consumption costs, and can easily be managed remotely.

Based on the smart technology integrated by Alfen, the Eve Mini autonomously carries out the local management of your installation. If you opt for advanced options such as load balancing or the Alfen Smart Charging Network, the charge points always charges with the optimum output. Users have a comfortable experience too, as the bright color display provides clear insights in the status of the charging process.

# Eve Mini™

## The charging station

### Excellent quality for a great price

The Eve Mini is a solid product that offers many high-tech features for offsetting energy consumption and managing the local power supply. At the same time this charge point is affordable.

### Smart Charging Network

Multiple Eve Mini's can be interconnected and collaborate to optimally use your installation. The individual charging stations are connected as peers but can be managed as a group by the back-end system.

### Always charge at the maximum output

Smart charging is made possible by communicating with your smart meter at home, or in a network with multiple Alfen products. The Eve Mini always provides users with the maximum possible output.

### Choose your own service provider

All Alfen chargers are SIM-unlocked. This offers you the liberty of being able to choose the charging subscription and Service Provider you prefer.

### Integrated protection

The Eve Mini is equipped with DC fault current protection. This helps you to save money on required residual current protection in the installation.

### Easy configuration

Connect the Eve Mini to a laptop during the installation and enter your preferred configuration settings with our free Service Installer configuration software.
